2. Current business

3.1 Announcements

We learned about the passing of a former resident of Barkmere, Mr. Gerald Abelson, on December 3rd, 2017. Mr. Abelson sold his property to Tim and Karen Anderson. Also, a well known person, the land surveyor Christian Murray, who

worked many times for the Town of Barkmere, passed away on February 20th, 2018.

The assembly holds a minute of silence in their memory.

We're going to be changing to daylight saving time, it's therefore a good time to check the batteries in our smoke detectors. The building inspector was mandated to visit the residences to verify the presence of smoke detectors as part of our obligations under the MRC Fire Safety Cover Plan.

3.2 Correspondence

No particular correspondence was received since the last meeting.

However, we have received a claim for the small claims court from an owner.

3.3 BLPA

No representative was present.

3.4 Follow-up from last meeting

No particular subject was pending from the last meeting.

3.5 Question period (30 minutes)

Beginning of question period: 10h14 am

Mr. Peter Grou: Mr. Grou is asking if the Town admits to a mistake in relation to the small claim courts and whether the claimant will be compensated.

The Mayor gave a general overview of the case, which is currently before the courts.

Ms. Suzanne Pépin: Ms. Pépin, after checking with the Department of Social Affairs (sic), wonders how a council proceeds in the absence of the clerk and why the council has again unilaterally chosen the replacement of the clerk without asking in the assistance if someone would be able to do so as provided for in the *Cities and Towns Act* (Arts 90 and 333)?

To our knowledge, there is nothing in the law that provides for such a procedure and that is why we have asked for Mr. Roy's presence at this Council meeting and Ms. Gauthier is here to assist.

Ms. Suzanne Pépin: Ms. Pépin wonders if the Town could ask the Quebec Ministry of Transport to reduce the speed on Barkmere road from 50 to 40 km/h.

We are aware of this problem and we have had discussions with the Sûreté du Québec. According to them the reduction of the speed is not an optimal solution since the presence of an agent is necessary to make sure the speed limit is being

respected. According to the SQ, the optimal solution would be the installation of bollards which would be an incentive. The council will study the question.

Ms. Suzanne Pépin: Ms. Pépin wonders about the future of the park for the village citizens. She wonders if the only person who can do anything with respect to the renewal of the lease is the independent Councillor Ms. Andrea Leber, since this land, which cannot be built on, belongs to her. She also requests that the Town negotiate the extension of this lease before it expires.

When the lease expires, the Town will apply for the renewal of the lease to Ms. Leber's company, but the latter has no obligation. If ever the lease is not renewed, the Town will find another solution. The Town will be able to explore other lands and explore other options. However, the Town believes in this park and wants to keep it.

Mr. Ghislain Brosseau: Mr. Brosseau wonders if the loan granted by the Town to Filau places the Town in a situation of conflict of interest.

We must first understand the history of Filau, which began as an organization of the MRC des Laurentides. The MRC wanted to benefit from the fact that the Quebec government had paid to transport optical fiber in all city halls in Quebec municipalities. So Filau was founded as an organization of the MRC to use this possibility of fiber optics by offering the internet in the various municipalities. Given the high cost of providing such services to Barkmere, subsidies had to be found. Last year, Filau became an independent body of control of the MRC where only a mayor sits on its board of directors, unlike before where all the mayors sat. A \$ 12,000 over a period of 3 years financing agreement has been signed between the Town and Filau and this loan must be repaid no later than the due date or before, depending on the number of subscriptions our residents have for its services. The number of subscriptions has an impact on the repayment term that could be before 3 years. However, the Town does not force the subscription, free to each citizen to choose his Internet provider. The Town only informs citizens of the availability of this service. And so, the Town does not put itself in a conflict of interest since it is only a loan.

Ms. Susan Deschulthess: Ms. Deschulthess asked if Filau has the mandate to make the Internet service available to all the properties of the Town, since 3 properties on Patry Road have no coverage of the service.

Filau does not have the mandate to ensure that all its services are offered throughout the Barkmere territory.

End of question Period: 10h35 am
