

Boat Identification Label Procurement Procedure (Bylaw 243)

- Identification label and mandatory decontamination at Lac des Écorces
- In order to speed up the process of obtaining an identification label, please fill out our form before your arrival in Barkmere and do not forget your supporting documents.

What type of boat should be provided with an identification label

Every motorized vessel on or intended to be on the Lake must have an identification label and any non-motorized vessel on or intended to be on the Lake that is not owned by a resident must be equipped with an identification label.

What is an identification label:

A self-adhesive label or daily pass issued by the town bearing the town logo, intended to be affixed visibly to a boat.

How do I get an identification label:

To obtain an identification label for a boat, the owner of the boat must complete and sign the registration form provided by the Town: available on the town website, at the Town Hall or at the decontamination station.

You will need: your contact information, a piece of identification, proof of property ownership in Barkmere, technical data of your boat (model, length, motor horse power) and a pleasure craft license that proves that you own the boat. If you do not hold this permit go to this link:

<https://tc.canada.ca/en/marine-transportation/marine-safety/licensing-pleasure-craft>

Once the registration procedure has been completed, you must be present during the opening hours at the decontamination station located at 199 Barkmere road in Barkmere with your completed form and the documents requested so that an employee can finalize your file and proceed to installing your identification label on your boat. If you plan to go to the Lake after your identification label has been issued please allow for about 15 minutes so that we can decontaminate your boat.

Duration and cost of the identification label:

For property owner in the Town of Barkmere, the identification label is valid as long as you own the boat and you own the property in the Town of Barkmere. The identification is free of charge.

For daily users, your boat must be removed from the lake the same day as its launch according to the opening hours. The duration of the identification label is valid only for one day. The price includes the decontamination as well as the parking.
